PLANNING RESOURCE

Partner *Discussion Guide*

A starting point for schools, community groups, venues and service providers considering how they might support one of the two proposed programs.

Questions for a first conversation

Choose a program	Would your group be a better fit for youth mentorship and project-based learning, or for a recurring veterans gathering?
Describe a contribution	Could you offer an accessible room, workshop materials, trained staff, creative expertise, technology help or an introduction to a qualified provider?
Plan for access	Which schedules, transportation needs, language needs or physical accommodations should you consider with participants?
Agree on responsibilities	Who would lead the activity? What training, screening, clinical credentials, supervision or consent would be needed?
Define a useful outcome	What would you want participants to gain, and what simple feedback would help you decide whether to repeat the activity?

PLANNING STATUS

Use this guide to prepare ideas. The foundation is still confirming service areas, program leadership, dates and partner arrangements.
